

# What's on?

## School lunch link

If you have not yet booked your child's meals for next week, please do so before tomorrow's 6pm deadline. [Click here](#).

As all of our meals are prepared and cooked fresh in our kitchen we regrettably have to charge for all meals booked, unless your child does not come into school in the morning.

## Covid-19 update

We are continuing to experience high levels of Covid-19 across the school, with staff and children being affected.

To help reduce transmission, please do consider carrying out regular Lateral Flow Tests – these are very effective at picking up asymptomatic cases.

Children are often presenting with a headache, tummy ache or tiredness prior to testing positive, so please do look out for these symptoms in your children.

As we continue to do all we can to keep classes open, your children may tell you that they have been taught by other familiar adults, but not their class teachers. Our priority is keeping your children safe and then consistency for your children wherever we can, especially in key adult roles.

## Clubs

Zumba, athletics and choir have all started (or will start) this week.

Football club starts on Monday of next week.

JAM club for children in Years 5 and 6 will start next week – look out for the letter.

## Year 3 and Year 4 performance

Parents in Year 3 and Year 4 will have been aware that at the end of this term the children in both year groups were going to put on a joint performance.

Sadly, owing to the current high case rates of Covid-19, we have had to take the decision to hold the performances separately.

Year 4 will give their performance at the end of this term and Year 3 will give theirs at the end of next term.

**CAP LIFE SKILLS**

# Life Skills

- Budgeting
- Money saving tips
- Cooking on a budget
- Healthy relationships
- Confidence
- Communication

## Educational computer games about vaccines

A member of our parent body works with the Jenner Institute in Oxford on vaccines for TB and Covid-19. This year marks 100 years of the BCG vaccine and to celebrate this some computer games have been developed to help children learn all about vaccines. If you are interested in exploring the games with your children, [click here](#).
